

Searching for something reliable?

Hub and spindle assemblies that are built to last

GBGI produces high quality components with the key benefits of accuracy, repeatability, versatility and integrity made to order in the USA.

Work with us and we will design and manufacture a superior assembly. We look for ways to make it more durable and eliminate costly warranty expenses.

Our 3 Piece V Seal is designed to keep the muck out. Preventing premature bearing failure, grooving of the spindle and costly downtime.

Keep your wheels rolling longer.
