

GBGI's 3-P Seal vs. Ordinary Seals

GBGI's 3-P Seal

Did Not Fail at 500 Hours

500

450

GBGI's 3-P Seal tested against the competition, run through aggressive slurry with bentonite clay.

400

- Standard single lip seal lasted only 1/3rd the life of GBGI's 3-P Seal.

350

- Industry standard triple lip seal only lasted less than half the life of GBGI's 3-P Seal.

300

- GBGI's 3-P Seal never failed in either lab test and ran the full 500 hours.
