

Low maintenance hubs, proudly built in the USA to handle the harshest environments

Rolling basket bearings failing prematurely?

GBGI's new patent pending Roll-Max™ hub assemblies outperform standard flange bearings. Keep your baskets rolling in the most extreme conditions with -

ROLL-MAX™

Stack-up, Angular Contact, Double Roller Bearings

- Sealed, durable cast hub housing
- Adaptable to multiple bolt diameters
- Minimal maintenance, serviceable with easy to remove hub cap

Three Piece V-Seal and Hub Cap Seal

- Keeps contaminants out, protecting bearings from premature failure
